Stepping Stones

25 pieces for beginner ensemble.

Starting with 5 pieces which use just 5 notes per instrument, and expanding the range to 9 notes by the final arrangements.

With parts for woodwind, brass and string* instruments, plus percussion, piano and guitar.

A great start for players in their first year of learning.

*these arrangements are designed primarily for brass and woodwind players, so whilst string parts in 1st position are included, they are in keys which are not ideal for a first year string player. A separate edition for string orchestras is available.
